THE SOCIETY NEEDS YOU!

The Nova Scotia Society of Occupational Therapists was established in 1951. It has been successful in its mandate to promote the profession in NS since then due to the dedicated volunteers from our membership. The Society has grown over the years to include 2 paid staff, our Executive Director and our Office Manager, but no progress can be made without active membership involvement.

We strive for Occupational Therapy to become accessible and effective for all Nova Scotians despite disability or disadvantage. The Society promotes the development of Occupational Therapy practice through continuing education, support, and advocacy of our members and their clients.

Our volunteers have made the difference in what NSSOT can accomplish and the Society is here for our members!

If you are looking to make a difference in Occupational Therapy in Nova Scotia, rewarding volunteer opportunities for members throughout the province are awaiting you!
